

## TURNITIN TRAINING FOR BETTER ACADEMIC WRITING

A training on TURNITIN was organised by **Asia Metropolitan University (AMU)** library on **18th July 2021** and was held for two hours from **3.00 pm to 5.00 pm**. All academic faculty members at AMU have participated and gathered to learn on what Turnitin is all about. This event was organised with the intention to provide clear view on how to use this complete web-based platform to check the plagiarism on the students' papers before submitting the papers as final papers. Turnitin works similar as other social medias such as Facebook account by using personal email and password registering and logging in.

The training was conducted by **Mr. Mazlan Abd. Latiff** from **APEX KNOWLEDGE SDN. BHD.**, assisted by **Ms Kelly** whose helping on the Question and Answer session at the end of the training session. It was hope that the training will be beneficial to all faculty members in ensuring the students' papers are original as well as for a self-check for faculty members in their academic writings.

## BASIC INFO ON TURNITIN

According to **Mr. Mazlan**, Turnitin was implemented in **1996** by **Turnitin LLC** which was one of the US Based software as a tool for educators to check the technicality regarding the authenticity of student's work. Meanwhile, as at now, **APEX KNOWLEDGE SDN. BHD.** has the right to commit on the Training and being the exclusive Seller of Turnitin to education institutions offering this kind of service.

This Web-Based Training system offers mainly two tools which are known as **Originality Check** and **GradeMark**. On **Originality Check**, the system is checking to match student's paper or write up against the database's collection where this may help educators to make their own assessment on the results provided by Turnitin. As for **Grademark**, it is known as red mark marking which will provide text comment and voice comment to student's outcome for the improvement on the write up.

## 3 IMPORTANCE ASPECT IN TURNITIN

There are :

- 1) **Setting Up New Account** - Name, Email & Setup Turnitin Account
- 2) **Create Classes** - Class subject, Password Class & Student level
- 3) **Create Assignment** - Assignment Name, start/end date & optional setup

## BENEFITS FOR PARTICIPANTS

Not only that the participants were gaining knowledge and information from the training session, but AMU library has also prepared certificate of attendance to all staff and lecturers who have attended the session. With this certificate, it is hoped that it would increase their interest for gaining knowledge in terms of exploring Turnitin Web-Based platform passionately. Lastly, AMU Library would like to thank all participants for sparing their precious time in attending and giving full attention to this informative training.

**' Helpful on checking sources & save time '**

**Participant's comment**

## LATEST IMPROVEMENT

Early in 2021, Turnitin has launched a new function named Flags for review. The main function is to detect manipulation from students for submission by replacing character or hidden text because different alphabet may look similar and difficult to be detected manually. The example of this feature is; hidden quotation marks. Turnitin may detect something strange on the sentence by flagged it for the user. This feature is hoped to help the lecturers and assessors in enhancing the capability of using Turnitin on the Originality Check aspect.
