1. Introduction

This handbook is written to guide potential and new APEL.A applicants through the processes and requirements of their current or future APEL.A application. This handbook is written based on *Buku Panduan APEL.A* published by the Malaysian Qualification Agency (MQA). Malaysian Qualification Agency, through the MQA Act 2007 (Act 679) has an ongoing commitment to assist individuals in fully utilizing their prior formal, informal and non-formal learning. Currently, MQA assists in identifying learning not formally certified.

The process of identifying and fully utilizing formal, informal and non-formal experiential learning that happens through lived and working experiences is called the Accreditation of Prior Learning Experience (APEL), set under the Malaysian Qualifications Framework (MQF). APEL can be requested by learners to support the transition between formal and informal learnings, basing their APEL application based on multiple combinations of formal, non-formal or informal learning.

APEL in Malaysia is guided by the following core principles:

- i. Prior experiential learning should be recognized regardless of how and where it was achieved, provided it is related to learning or a form of competency acquisition;
- ii. Assessments will be based on authentic, flexible, current and reliable evidence;
- iii. Assessment will be conducted by practitioners/experts in the subject, in the related field;
- iv. The method of assessment will be tailored to the level and experience of the learners, thus providing an opportunity for learners to demonstrate their acquired competencies;
- v. Decisions of APEL assessments should be transparent and subject to appeal and review;
- vi. Information and support services will be actively publicized, taking into account the diversity of the students; and
- vii. Quality assurance mechanisms should be clear and transparent.

2. APEL.A

The APEL.A certification indicates the competencies and readiness of an applicant to pursue a particular programme, measured against a benchmark of Learning Outcomes. However, the certification does not guarantee admission into a Higher Education Provider (HEP). Admission procedures and additional requirements must still be complied, as determined by the HEP. Initially, APEL.A was offered to Malaysians seeking recognition of their prior formal, non-formal and informal learning. In 2020, the decision was made to extend APEL.A to expatriates working in Malaysia as well as their family members.

It should be noted that the APEL.A certification can only be used for the purpose of applicants furthering studies in a chosen field relevant to their experiential learning. It does not equate to the knowledge and competencies of a particular academic degree programme as defined by MQF. The certification should not be used to seek employment.

APEL.A certification in Asia Metropolitan University is offered at the following levels:

APEL.A T-6: Used to apply for entry into a programme at the Bachelor's level.

APEL.A T-7: Used to apply for entry into a programme at the Master's level.
